

SAUCEDEMO - TEST EXECUTION

QA-TE-001 | Version 1.0 | Prepared by Nancy McKenzie | Manual QA Portfolio Project

Execution-control artifact for the 42 detailed SauceDemo test cases. All cases intentionally begin as Not Run so final Pass/Fail/Blocked results can be based on actual evidence.

Execution Readiness Summary

Metric	Current Value
Total Test Cases	42
Executed	0
Pass	0
Fail	0
Blocked	0
Not Run	42
Execution Status	Ready for Execution

Execution instructions: enter the Actual Result after running each case; select Pass, Fail, Blocked, N/A, or leave Not Run; record the tester and execution date; add evidence references when useful; and link failed cases to a defect candidate or defect ID.

Execution Register

Execution ID	Test Case ID	Module	Test Case Title	Priority	Expected Result	Status	Defect ID	Executed By	Execution Date
EXE-001	TC-001	Authentication	Login with valid standard user	Critical	Login succeeds and Inventory page is displayed.	Not Run			
EXE-002	TC-002	Authentication	Reject invalid username	Critical	Login is rejected and a clear error message is displayed.	Not Run			
EXE-003	TC-003	Authentication	Reject invalid password	Critical	Login is rejected and an authentication error is displayed.	Not Run			
EXE-004	TC-004	Authentication	Validate blank username	Critical	Login does not proceed and required username validation is displayed.	Not Run			
EXE-005	TC-005	Authentication	Validate blank password	Critical	Login does not proceed and required password validation is displayed.	Not Run			
EXE-006	TC-006	Authentication	Reject locked-out user	Critical	User remains unauthenticated and locked-out error message is shown.	Not Run			
EXE-007	TC-007	Inventory	Display inventory after valid login	Critical	Inventory page loads and available product cards are visible.	Not Run			
EXE-008	TC-008	Inventory	Validate product information on inventory	High	Each product displays readable identifying information and price.	Not Run			
EXE-009	TC-009	Inventory	Sort products name A to Z	High	Products appear in ascending alphabetical order.	Not Run			
EXE-010	TC-010	Inventory	Sort products name Z to A	High	Products appear in descending alphabetical order.	Not Run			
EXE-011	TC-011	Inventory	Sort products price low to high	High	Products are ordered from lowest to highest price.	Not Run			
EXE-012	TC-012	Inventory	Sort products price high to low	High	Products are ordered from highest to lowest price.	Not Run			
EXE-013	TC-013	Product Details	Open product details from product name	Medium	Correct product detail page opens with matching product information.	Not Run			
EXE-014	TC-014	Product Details	Return from product details to inventory	Medium	Inventory page is displayed again.	Not Run			
EXE-015	TC-015	Cart	Add one product from inventory	Critical	Product is selected and cart badge shows 1.	Not Run			
EXE-016	TC-016	Cart	Add product from detail page	High	Product is added and cart badge shows 1.	Not Run			
EXE-017	TC-017	Cart	Add multiple products	Critical	Both selected products are present in the cart.	Not Run			
EXE-018	TC-018	Cart	Validate cart badge after multiple additions	High	Badge count accurately tracks the number of selected items.	Not Run			
EXE-019	TC-019	Cart	Remove product from inventory selection	Critical	Product is deselected and cart badge updates accordingly.	Not Run			
EXE-020	TC-020	Cart	Remove product from cart page	Critical	Product is removed from cart and badge count updates.	Not Run			
EXE-021	TC-021	Cart	Validate cart state after removing one of multiple products	Critical	Only the intended item is removed; remaining item stays and badge shows 1.	Not Run			
EXE-022	TC-022	Cart	Continue shopping preserves cart	Medium	Inventory reopens and previously selected product remains in cart.	Not Run			
EXE-023	TC-023	Cart	Validate cart item details	High	Cart displays the correct selected product and matching price.	Not Run			
EXE-024	TC-024	Checkout	Start checkout with item in cart	Critical	Checkout: Your Information page opens.	Not Run			
EXE-025	TC-025	Checkout	Require first name	Critical	Checkout does not advance and first-name required error is displayed.	Not Run			
EXE-026	TC-026	Checkout	Require last name	Critical	Checkout does not advance and last-name required error is displayed.	Not Run			
EXE-027	TC-027	Checkout	Require postal code	Critical	Checkout does not advance and postal-code required error is displayed.	Not Run			
EXE-028	TC-028	Checkout	Continue checkout with valid customer information	Critical	Checkout Overview page opens and cart items are retained.	Not Run			
EXE-029	TC-029	Checkout	Validate order overview product details	Critical	Overview accurately reflects selected cart item details.	Not Run			
EXE-030	TC-030	Checkout	Validate order subtotal	Critical	Displayed item subtotal equals the sum of selected item prices.	Not Run			
EXE-031	TC-031	Checkout	Validate tax and total consistency	Critical	Displayed Total equals Item total plus Tax.	Not Run			
EXE-032	TC-032	Order Completion	Complete a valid single-item order	Critical	Order completes and success confirmation is displayed.	Not Run			
EXE-033	TC-033	Order Completion	Complete a valid multi-item order	Critical	Order completes successfully and confirmation is displayed.	Not Run			
EXE-034	TC-034	Order Completion	Return to inventory after order completion	Medium	Inventory page opens successfully.	Not Run			

Execution ID	Test Case ID	Module	Test Case Title	Priority	Expected Result	Status	Defect ID	Executed By	Execution Date
EXE-035	TC-035	Navigation	Open and close application menu	High	Menu opens and closes without corrupting page state.	Not Run			
EXE-036	TC-036	Navigation	Use All Items menu action	High	Inventory page is displayed.	Not Run			
EXE-037	TC-037	Navigation	Use Reset App State	High	Application state is reset according to demo behavior and shopping state is cleared.	Not Run			
EXE-038	TC-038	Session	Logout authenticated user	High	User returns to login page and authenticated session ends.	Not Run			
EXE-039	TC-039	Session	Verify normal authenticated navigation is unavailable after logout	High	Inventory is not accessible through normal UI flow until valid login occurs.	Not Run			
EXE-040	TC-040	Usability & UI	Validate clarity of login and checkout validation messages	High	Messages are visible, readable, and indicate the problem clearly enough for corrective action.	Not Run			
EXE-041	TC-041	Usability & UI	Validate readability and association of product information	High	Product information is readable and consistently associated with the correct item.	Not Run			
EXE-042	TC-042	End-to-End	Execute complete standard purchase journey	Critical	User completes the full purchase path with consistent cart state, valid checkout data, accurate overview, and successful confirmation.	Not Run
