

SAUCEDEMO - REQUIREMENTS TRACEABILITY MATRIX

QA-RTM-001 | Version 1.0 | Prepared by Nancy McKenzie | Manual QA Portfolio Project

Traceability from requirements to scenarios and detailed test cases. Planned coverage is complete; execution and final validation remain pending until actual SauceDemo testing is performed.

Requirement	Area	Requirement Summary	Priority	Scenario(s)	Test Case(s)	Coverage	Execution	Defect(s)	Final Status
REQ-001	Authentication	Allow recognized, non-locked users to log in with valid credentials.	Critical	TS-001, TS-024	TC-001, TC-042	Covered	Not Run		Pending Validation
REQ-002	Authentication	Reject invalid or missing login credentials with meaningful feedback.	Critical	TS-002, TS-003	TC-002, TC-003, TC-004, TC-005	Covered	Not Run		Pending Validation
REQ-003	Authentication	Prevent a locked-out user from accessing the application.	Critical	TS-004	TC-006	Covered	Not Run		Pending Validation
REQ-004	Inventory	Display available product inventory after successful login.	Critical	TS-005, TS-024	TC-007, TC-042	Covered	Not Run		Pending Validation
REQ-005	Inventory	Display product name, image, description, and price.	High	TS-005	TC-007, TC-008	Covered	Not Run		Pending Validation
REQ-006	Sorting	Allow inventory sorting by all available sort options.	High	TS-006	TC-009, TC-010, TC-011, TC-012	Covered	Not Run		Pending Validation
REQ-007	Product Details	Allow product detail navigation from inventory and back.	Medium	TS-007	TC-013, TC-014	Covered	Not Run		Pending Validation
REQ-008	Cart	Allow one or more products to be added to the shopping cart.	Critical	TS-008, TS-009, TS-024	TC-015, TC-016, TC-017, TC-042	Covered	Not Run		Pending Validation
REQ-009	Cart	Allow selected products to be removed and update cart state.	Critical	TS-010	TC-019, TC-020, TC-021	Covered	Not Run		Pending Validation
REQ-010	Cart	Display products currently selected in the shopping cart.	Critical	TS-009, TS-011	TC-017, TC-018, TC-021, TC-023	Covered	Not Run		Pending Validation
REQ-011	Cart	Allow Continue Shopping without losing valid cart selections.	Medium	TS-012	TC-022	Covered	Not Run		Pending Validation
REQ-012	Checkout	Allow a user with cart items to begin checkout.	Critical	TS-013, TS-024	TC-024, TC-042	Covered	Not Run		Pending Validation
REQ-013	Checkout	Require first name, last name, and postal code before continuing.	Critical	TS-014, TS-015, TS-016, TS-017, TS-024	TC-025, TC-026, TC-027, TC-028, TC-042	Covered	Not Run		Pending Validation
REQ-014	Checkout	Present an order overview before final purchase completion.	Critical	TS-017, TS-018, TS-024	TC-028, TC-029, TC-042	Covered	Not Run		Pending Validation
REQ-015	Checkout	Display internally consistent subtotal, tax, and total.	Critical	TS-019, TS-024	TC-030, TC-031, TC-042	Covered	Not Run		Pending Validation
REQ-016	Order Completion	Allow valid checkout completion and display confirmation.	Critical	TS-020, TS-024	TC-032, TC-033, TC-034, TC-042	Covered	Not Run		Pending Validation
REQ-017	Navigation	Provide expected application menu and navigation actions.	High	TS-021	TC-035, TC-036, TC-037	Covered	Not Run		Pending Validation
REQ-018	Session	Allow logout and end the authenticated application session.	High	TS-022	TC-038, TC-039	Covered	Not Run		Pending Validation
NFR-001	Usability	Primary shopping actions and labels should be understandable.	High	TS-023	TC-040	Covered	Not Run		Pending Validation
NFR-002	Consistency	Navigation, buttons, cart state, and validation behavior should remain consistent.	High	TS-024	TC-042	Covered	Not Run		Pending Validation
NFR-003	Error Handling	Functional errors should provide visible, understandable feedback.	High	TS-023	TC-040	Covered	Not Run		Pending Validation
NFR-004	Data Presentation	Product and checkout information should remain readable and correctly associated.	High	TS-023	TC-041	Covered	Not Run		Pending Validation
NFR-005	Browser Compatibility	Defined manual test baseline should execute in the project's primary browser configuration.	Medium	Execution environment validation	Execution evidence	Covered	Not Run		Pending Validation
NFR-006	Session Integrity	Logout and normal navigation should not produce unintended authenticated state.	High	TS-022, TS-024	TC-039, TC-042	Covered	Not Run		Pending Validation
